THE TRIBUNE.

FROM EUROPE. Arrival of the Great Western.

The steamship GREAT WESTERN, Cap. Hosken, arrived at this port at I o'clock, P. M., from Bristol, Eng., via Madeira, having been 29 days on her devious way. She brings European advices six days later, with the news by an overland Mail from India and China.

The European news is not important. England is tranquil and her poor less miserable than a few months ago, though the activity in her Manufacturing Districts consequent on the news of Peace with China has somewhat abated. The Cotton Market has been so glutted that buyers have their own way, and a farther decline of &d is nearly or more favorable.

Parliament is actively in session, and discussions of the Ashburton treaty and of Canadian affairs are frequent and earnest. The warmest feelings of good will to the United States are expressed by all parties. The Ministry have avowid in debate their express approval of Sir Charles Baget's course in Canada in taking the French into his confidence. [Then-why supersede him?] Sir Samuel Spry (Cons.) has been elected to the House of Commons from Bodmin, beating Mr. Sawle, (Liberal,) by 165 to 161 votes.

In FRANCE; the Ministry have had a severe struggle in the Chamber of Deputies, being assailed upon their Foreign policy, with reference to England, Spain, &c. Marshal Soult ably and fearlessly sustained M. Guizot. M. Duperre has resigned the station of Minister for the Marine and Colonies, and been succeeded by Baron Roussin.

In Spain, the fermentation of Barcelona has by no means subsided, but has been excited to a smothered fury by the severities and exactions of Gen. Seaone. Another insurrection is anticipated, though the Government and Gen. S. have taken the most vigorous measures to prevent it.

Abd-el-Kader has made another inroad into the French possessions in Algiers.

The English are complaining of the high duties on their Manufactures exacted by Russia, which virtually shut them out of that country.

RIGHT OF SEARCH .- House of Lords, Feb. 7 Lord Brougham entered into some explanations, with a view to remove a misapprehension enter tained by the Attorney General of France (M. Dupin) as to what had fallen from him (Lord Brougham) on a former occasion relative to the objections on the part of America to any treaty containing a clause recognising the right of search. In 1824, the Americans had sent a treaty to this country agreeing to the right of search, but objecting to its extension to the American perts; a reasonable objection, because it was unlikely that slave vessels should be in the waters of New-York as in those of the Thames. If this one point had been waved, the right of search might now have been in existence for the last ninetee

THE WASHINGTON TREATY .- House of Lords Feb. 9 .- Lord Campbell wished to put a question to the government, which they would have no difficulty in answering; which was, whether they intended to introduce a bill into parliament for the purpose of carrying out the 10th article of the treaty of Washington, an article which he highly approved, It was respecting the delivering up of persons who had committed crimes in England or America. Unless a bill were introduced that article would be useless in this country, as, by the common law of the land, no person could be giv-

Lord Ashburton said, that although he was not so well acquainted with the law as the Noble Lord, yet he knew very well that unless an act of parliament was passed, the 10th section of that treaty would be useless. He had written to the American Secretary stating this, therefore, there was no doubt but her Majesty's government intended to introduce an act for the purpose of carrying out that article. Although it required an act in this country in America it did not.

House of Commons, February 9 .- AMERICAN Boundary .- Lord Palmenston gave notice that he should postpone his motion on the subject of the American Boundary from Tuesday the 21st | Chinese language and character, was named Briinstant to Thursday the 23d.

FROM THE EAST.

The Overland Mail reached London on Sunday night, with intelligence from Bombay to the 2d of January, and from Macao to the 19th of November. As regards China, events were progressing favorably. The Queen's ship Herald had arrived at Hong-Kong, on her way home, with £1,500,000 more in dollars, part of the first instalment. That place is coded in perpetuity to England, and the Hong merchants are virtually defunct. A friendly feeling had succeeded the belligerent one, with which the English and the Chinese favorably regarded each other. Before leaving Nankin, the Imperial Commissioners gave a grand entertainment to the officers of the army and navy, at which professions of amity were indulged in on both sides. The British forces were to be stationed in about equal divisions at Amoy, Hong-Kong, and Chusan. English merchants and their families are permitted, by the decrees of the Emperor, to reside at Canton, at Amoy, at Fowchowfoo, at Ningpeo, and at Shanghae. At the last mentioned place, Captain Balfour is to be stationed as British Consul-General. Sir Hough Gough, the military commander of the expedition, was about returning home, and Sir Henry Pottinger was expected in the beginning of December at Hong-Kong, to arrange about a commercial tariff.

INDIA. The India mail has arrived, and we have re ceived the India journals and letters to the 2d of-January. The intelligence which they bring, though not of the exciting interests of some mails of last year, is satisfactory, as proving that the peace and tranquillity so much desired in our East-

ern possessions have been thoroughly established. The differest corps of the army under the command of General Pollock had crossed the Sutledge, and after their fatigues and their sufferings, their campaigns and their battles, the soldiers were about to enjoy their triumph and their rewards .-The Governor-General, with the Commander-in-Chief, and a portion of the army of reserve, was present at Ferozepore on their arrival in the British territory, to welcome them. The batta promised, and the medals were about to be distributed with a liberal hand, and general rejoicing appeared to be the order of the day. Various exaggerated reports had been circulated about a sort of plague resembling the small pox having broken out in one of the corps, but the correct version showed that the malady was of a mild form, and committed no ravages. Several officers, however, had died on

the march. There were also rumors about jealousies and bickerings stated to prevail among the Generals, I It was rumored that the Pacha is preparing a

but exaggeration had, it would appear, crept into military expedition to Darfour, that Hassan Pacha most of the statements circulated on the subject. is about to leave Cairo with two regiments, to It would not be strange if hereafter it became manifest that the whole of the complaints were founded upon mistake.

Among the events which engrossed the attention of the Indian journals during the month of December, the proclamation by Lord Ellenborough, addressed "to all the princes, and chiefs, and people of India," and already so noterious here, had given rise to the most extraordinary comments .-It appears to have met with no favor from any

The navigation of the Indus and its tributary rivers had attracted much of the attention of the government.

A demand had been made upon the Ameers of Scinde for their assent to a treaty, by which Kurrachee and Tatta, and a strip of land extending along the bank of the Indus, with the towns and forts of Sukkur, Bukkur, and Roree, as far as their territory reached, should be made over to the Company. The Ameers appeared at first eager to make a determined resistance, but the presence of the quite established. For Provisions, the market is British army under the command of Sir Charles Napier had diminished that eagerness.

Major Outram, who was removed in November from the political agency at Hyderabad, had early in December received orders from the Governor-General to resume those functions, as his knowledge of the inhabitants and their rulers, is likely to prove advantageous. He started from Bombay on board a steamer on the 16th of December, to proceed to join Sir Charles Napier, and to conclude the arrangements which it was expected would be speedily effected to the satisfaction of the parties.

There were different reports in circulation respecting the disturbed state of Cabul, where the young son of Schah Soojab, Schah Poore, still maintained himself, as did his brother, Sufter Jung, at Candahar. The adherents of Akhbar Khan asserted that he would soon be at the head of a large force, and would take the government from the feeble sove, eign of Cabul. Dost Mahommed had an interview with Lord Ellenborough at Loodianah in the beginning of December, and was to proceed with an escort to Peshawur, where he was to reside for some time, under the protection of the Sikh government. The intention of the Governor-General to observe neutrality on the subject of the Cabul government was avowed explicitly.

The victories in Affghanistan and China had produced the effect of quieting even the most disturbed parts of the Bundlekund district. It was asserted that some documents had been discovered which tended to implicate the deposed sovereign of Hindostan, or, as he is called, the descendant of the Great Mogul, in those disturbances. The vigilance of the governor has, however, neutralized all attempts on his part, and on that of his abettors, to create confusion in India.

There was much talk in Bombay relative to an intrigue got up by certain natives for the purpose of inducing the Chief of Guzerat, called the Guicowar, to advance a large sum of money, even to the amount of £50,000, which, as those parties pretended, was to be expended among certain high influential personages, in order to gain some advantage for that Indian Prince. The Bombay government, having been apprized of the intrigue, ordered an examination of the papers of an old merchant, named Dackdee Dadajee, and of others. The old merchant does not appear to be personally engaged in the intrigue, but the complicity of others has been laid bare by the decided measures adopted. The necessity is evident of being continually on the alert to parry those intrigues which are usually concocted with all the cleverness of Eastern cunning, and so as to involve the unwary. however innocent, in the most unpleasant conse-

An examination was going forward into the means of rendering the custom-house of Bembay more efficient.

The rumor of Tharawaddie's death has been contradicted. He appears now to be theroughly convinced of the inutility, on his part, of trying any struggle with the British power in the East.

The Hindostan steamer arrived at Madras on the 19th of December, and started on the following day for Calcutta. CHINA.

The news from China comes down to the 19th of November from Macao, to the 15th from Hong

Kong; and to the end of October from Chusan. The last division of the fleet, having left Yan Tze-Kiang river, had on the 17th of O tober reached Chusan, where a portion of the troops was to be stationed for a time, other portions were stationed at Amoy and Hong Kong; this latter colony is governed by Lord Saltoun. It was thriving, and a proposal had been made for erecting a theatre there. Captain Balfour, of the Madras Artillery, who had gained a considerable knowledge of the tish Consul-General, to reside at Shanghae. There were various decrees published by the Emperor, in which the national dislike of the Tartars to all foreigners was in some measure concealed, and a wish to maintain the "everlasting peace" exhibited. English merchants and their "families" are to be permitted, according to those decrees, to reside at Canton, at Fowchowfeo, at Amoy, Ningpoo, and Shanghae; and their ships are to have places for repairs. Hong Kong is ceded in perpetuity as a colony to Great Britain, and the Hong," or monopoly merchants, are to abolished.

Sir Henry Pottinger was expected to arrive at Hong Kong towards the end of November or beginning of December, in order to carry on the negotiations respecting the commercial tariff. The Commander-in-Chief, Sir Hugh Gough, intended, it was stated, to sail for Calcutta in the beginning

Several of the regiments appear to have suffered severely from sickness. The Chinese were repair ing all their fortifications.

TURKEY. Letters from Constantinople state that they had sent a special messenger to recall Raschid Pasha, the Embassador in France, who was to be appointed Reis Effendi.

By the accounts received from Constantinople, we regret to state that a dreadful shipwreck happened about the 11th of last month near the Dardanelles, by which upward of one hundred persons were lost. The name of the unfortunate vessel is not exactly known. She is stated to be a Greek ship, and had eighty-seven passengers beside her crew on board, not one of whom was saved. She was driven by a gale of wind on shore at about twelve at night, and almost instantly went to pieces. The accounts state that the weather at Constantinople of late has been very severe, and other serious disasters of the same nature have occurred in different directions along the coast.

EGYPT AND SYRIA. The Overland Mail brings intelligence from Alexandria to the 23d of January. The Pacha had returned frem his excursion to the upper country, and reached Cairo on the 13th of that month. The murrain existed, but was gradually disappearing. Its ravages had been great.

Preparations are being made for the construction of a double lock at Atte, the point at which the Mahsoudish canal joins the Nile, the object of which is to allow a free navigation between Cairo and Alexandria, without subjecting boats to the necessity of unloading at Atté, whence their cargoes are at present transmitted by another boat to

Alexandria.

join a force of some 8,000 men already in the upper country.

The news from Syria is to the 9th of January. The Maronites have given up the cause of the Druses and have joined the Turks. An engagement had taken place in which the Druses were defeated. Several of their chiefs fled to the Haouran tribes; but instead of receiving the protection they expected, these mountaineers, to gratify an old pique, took them prisoners and gave them up to the Turkish authorities, in whose custody they now remain. One of the Maronite chiefs is said to be appointed governor of the mountains, not the old Emir Becher, who was reported on a former occasion to have rssumed their post.

A letter from Berlin, in the Journal du Frankfort, states that the marriage of the Prince Royal of Hanover with the Princess Maria of Altenburgh is to be solemnized on the 7th of next month.

THE GREAT WESTERN .- This far-famed vessel will leave this port for New York to-day, (Saturday), at 2, P. M. In order to avoid the stormy latitudes at this season of the year, she will proceed on her voyage via Madeira. She takes out above fifty passengers, and 150,0004, in specie, ocside a general cargo of manufactured goods. We have only to add in the words of the old bills of lading, "May God send the good ship a pros-[Bristol Mirror, Feb. 11. perous voyage."

IMPORTANT DISCOVERY .- The Hamburg schr. Paradise, Captain Zybrandts, on July 18, 1841, on a voyage from Valparaiso to Manilla, dicovered a group of six islands, thickly studded with cocoanut trees, and supposed uninhabited, in lat. 9 S. long. 172 W. of Greenwich (supposed not laid down in any charts.) The captain named them Paradise Islands. The latitude of the northernmost island, at noon, was made 9 degrees 6 sec. 20 min. S., and the long., by good chronometers, 172 W. The Uloe Group is laid down in the English charts 23 minutes too southerly, the most southerly and westerly of those islands being in lat. 7 32 N., long. 143 30 E.
